C13014 | SINGLE BOTTLE (30 SERVINGS)

Why choose Isotonix Coenzyme Q10?

Coenzyme Q10 (CoQ10) is a nutrient that plays a vital role in health maintenance. As individuals age, the ability to synthesize CoQ10 begins to decline. Sometimes, this is due to poor eating habits or stress, but the main challenge for most people is the ability to choose the right foods containing CoQ10 as well as get additional nutrients needed to manufacture CoQ10 in the body. Isotonix CoQ10 contains 100 mg of Coenzyme Q10 to support and maintain cardiovascular health.

Additional research shows that CoQ10 can also support cellular energy production and provide even more benefits for the heart and cardiovascular system. In addition to scientific evidence for the benefits of Coenzyme Q10, Isotonix CoQ10 also boasts absorption and efficiency, due to its isotonic fluid, which helps the nutrients to be absorbed into your system quickly.

The Isotonix Advantage!

Isotonix dietary supplements are delivered in an isotonic solution. This means that the body has less work to do in obtaining maximum absorption. Isotonic products allow nutrients to pass directly into the small intestine and be rapidly absorbed into the bloodstream. With Isotonix, little nutritive value is lost, making the absorption of nutrients highly efficient while delivering maximum results.

Isotonix products also offer the fastest and most efficient delivery system of all nutraceutical supplements and are formulated using only the most advanced and scientifically proven ingredients. Isotonix products are completely free of binders and fillers common in traditional tablet and capsule products so you know that you are getting only the quality ingredients you expect.
