## Why choose the TLS Weight Loss Kit?

Most people simply need a little help and support to reach their personal fitness goals, and that is why we have created this unique kit of three important weight loss supplements, TLS CORE Fat & Carb Metabolizer, TLS Fat Metabolizer with Chromax and Tonalin CLA and TLS ACTS Adrenal, Cortisol, Thyroid and Stress Support Formula designed to complement each other, providing you with beneficial tools you need to help your weight management plan and maintain good health.

TLS CORE Fat & Carb Metabolizer helps inhibit the body's absorption of carbohydrates you eat, and reduces fat stores in the body. It contains LeptiCore Ø, a clinically-proven, patent-pending ingredient designed specifically to promote healthy weight management. It also contains Phase 2\* white kidney bean extract, another proven ingredient that research shows helps with body weight by blocking carbohydrate absorption which means stopping carbs from being converted into fat. Finally, GreenSelect Phytosome† Green Tea Decaffeinated Extract provides potent antioxidant protection while promoting consistent fat metabolism.

TLS Fat Metabolizer with Chromax and Tonalin CLA is ideal for those who have lost weight, or are in the process of losing weight, and want the extra support to keep it off. TLS Fat Metabolizer with Chromax and Tonalin CLA contains natural ingredients that can help redistribute fat to fat-burning muscle tissue and decrease the amount of fat stored in your body.

TLS ACTS Adrenal, Cortisol, Thyroid and Stress Support Formula, specially formulated with Holy basil and Ashwagandha, works specifically to support a healthy thyroid and to reduce the symptoms of stress, such as fatigue, sleeplessness, irritability, and inability to concentrate. Unlike the competitors, TLS ACTS doesn't just mask the problem of weight gain – it addresses the root of the problem by helping your body adapt to stress and assisting you with your weight management goals.
