Why choose Isotonix Resveratrol?

Poor cellular and cardiovascular health is becoming a worldwide epidemic. An unhealthy diet of processed, high-calorie, high-fat foods, pollution, smoking and sedentary lifestyles all contribute to poor cell and heart health. Scientists revealed The French Paradox, which states that even though the French drink, smoke and eat high-fat foods, they have some of the lowest incidences of poor cardiovascular and cellular health. Scientists attribute this to the large amounts of red wine that the French consume or, more importantly, an extract found in red wine, resveratrol. Resveratrol is an ingredient with incredible clinical research revealing its supports cardiovascular and normal cell health. Because wine is so highly processed, the actual amount of resveratrol is quite low. One would have to drink at least 20 glasses of red wine a day to experience the effects of resveratrol extract.

Isotonix Resveratrol is an isotonic-capable supplement, made from Trans-Resveratrol and grape seed extract. Isotonix Resveratrol also contains VitaBlue® (wild blueberry extract), designed to promote normal cell health. These ingredients work together to provide key antioxidants to maintain good health. The health properties associated with red wine have intrigued doctors and scientists for centuries, but only in recent times has intensive study revealed the unique benefits of resveratrol for antioxidant defense at the cellular level among other benefits. Only Isotonix provides resveratrol in its most bioavailable form, and surpasses competing products by incorporating these exceptional antioxidants.

The Isotonix Advantage!

Isotonix dietary supplements are delivered in an isotonic solution. This means that the body has less work to do in obtaining maximum absorption. Isotonic products allow nutrients to pass directly into the small intestine and be rapidly absorbed into the bloodstream. With Isotonix, little nutritive value is lost, making the absorption of nutrients highly efficient while delivering maximum results.

Isotonix products also offer the fastest and most efficient delivery system of all nutraceutical supplements and are formulated using only the most advanced and scientifically proven ingredients. Isotonix products are completely free of binders and fillers common in traditional tablet and capsule products so you know that you are getting only the quality ingredients you expect.
