SINGLE BOTTLE (16 SERVINGS)

Why choose Ultimate Aloe Juice?

The aloe plant has been used to promote health for thousands of years. Ultimate Aloe Juice is a source of over 200 nutrients, enzymes, vitamins and minerals, including 13 of the 17 essential minerals needed for good nutrition.

Ultimate Aloe Juice has the IASC (International Aloe Science Council) seal that certifies the aloe content and purity. The aloe vera in Ultimate Aloe Juice is harvested and processed according to sanitary manufacturing practices that use specific time and temperature guidelines. This preserves the natural properties of the aloe vera plant so you receive the maximum benefits of the product. Ultimate Aloe Juice is virtually free of undesirable components such as aloin and other anthraquinones (aloin: one ppm or less) confirmed by an independent university laboratory. It is necessary to avoid components such as aloin and anthraquinones because of their history of harsh side effects.

FAQs

What is ActiveAloe™?

Ultimate Aloe Juice contains the ingredient ActiveAloe™, which is protected by a patented process that actually enhances aloe vera's biological activity by isolating the polysaccharide fraction from the plant. This is important because the healthful benefits of aloe come from polysaccharides of a certain size. ActiveAloe™ is produced under ultra-sanitary condition; employees go through sanitation every time work area entered and the entire area undergoes wash down each night. It contains a novel proprietary method enabling the dehydration of aloe while maintaining flavour, colour and nutrients.

I noticed the IASC Seal on the Ultimate Aloe Juice bottles. What is it and what does it mean for me?

The seal is a certificate from the International Aloe Science Council (IASC). It demonstrates that the quality of aloe in Ultimate Aloe Juice has been validated and certified by an independent group of professionals. Market America has made a strong commitment to sell a standardized, well-defined, thoroughly tested product that meets the rigid standards of the Council.
